

PARTNERS IN THE DELIVERY OF COMPASSIONATE CARE

BELONGINGS BAG

Art-inspired bags are eco-friendly and constructed of 80 gsm 100% non-woven polypropylene. Bags have reinforced 26" handles with velcro closure on the top center. Dimensions are 15" H x 20" W x 5 3/4" D. Optional adhesive bag labels with patient name and room number are available.

DOOR HANGER

Door hangers posted suggest the area is a quiet zone and help to protect family privacy during the final hours of life. Hangers are printed on sturdy 14-pt card stock, 3.5" x 8.5" with a glossy UV coating front and uncoated back.

SYMPATHY CARD

Place cards in bags for family members at the bedside or mail them as bereavement follow-up. Sympathy cards are 4" x 5.5" with a standard matte finish. Inside message reads "With caring thoughts and sympathy for your loss." Cards and door hangers are available in Spanish.

SEED PACKET

Include a Memory Garden Seed Packet when handing over patient belongings to receiving family members. Family members can plant a beautiful wildflower garden in memory of their loved ones. Flowers will bloom in all regions of the United States.

ABOUT US

Transitional Bridges has experience navigating end-of-life and loss from both the perspective of a professional who has worked in the healthcare industry and as a daughter. We sought to find answers to this experience and discovered best-in-class programs across the globe that serve as the foundation of our program.

Transitional Belongings Bags are designed for hospitals and in-patient hospice facilities to transfer personal belongings to the family after a patient has passed away.

At the core of our offering are Compassion Kits. Our kits include Transitional Belongings Bags, Door Hangers, and Sympathy Cards. We also offer an optional Memory Garden Seed Packet.

WHY CHOOSE US

- **Handing over belongings in a Transitional Belongings Bag is an empathetic way to show grieving families that their loved one's belongings are respected, and sympathy for their loss is conveyed.**
- **Our Compassion Kits empower healthcare professionals and impact community assistance for patients through proceeds.**
- **Eco-friendly bags are a sustainable alternative to plastic and can be used to transfer belongings to various departments throughout the hospital.**
